- 1) Soak sliced meat in milk for about 24 hrs.
- 2) Drain and blot dry.
- 3) Spray both sides with Pam.
- 4) Sprinkle with pepper and any steak seasoning.
- 5) Dredge in Wonder Flour.
- 6) Fry in Olive Oil and Butter.
- 7) Cook at medium to medium/high heat until tender and enjoy!!!!

# Ruger Rimfire World Championship

**"Match Winner and Open Division Winner"  
John Allchin**

SLOSA's John Allchin, 164.10 seconds wins the match by almost 21 seconds over 2nd place Eric Leach only to be followed by Art McIntosh in 3rd place by 7 seconds. The first place Limited Division winner is John Maxwell with a total of 231.28 seconds.

John Allchin

The 13 stages of fire were set up to test everyone's skills. .22 handguns and rifles were used on almost every stage. They shot at steel and clay targets. Some of the steel were static and some fell down when you hit them. The clays broke as if you hit them with a shotgun.

John Maxwell

Chris Saylor won the Junior Division followed closely by our own Janae Sarabia and Austin Hayes. The Senior crown was captured by John Maxwell, Super Senior is Tom Schiller and Top Lady is Janae Sarabia. Congratulations to all the winners of the 2009 Ruger Rimfire Championship. Thanks to Ruger and all the rest of our sponsors. Visit [www.TeamRimfire.com](http://www.TeamRimfire.com) to keep in touch with what is going on in the wonderful world of .22 shooting.

Art Macintosh, left, won a 1022 at the match. Noticing Janae was sharing a rifle with her dad, Art decided to pass on his winnings so Janae can shoot her own gun. Thanks Art.

John Begakis breaks some clays on the stage "Dark House". ●

## "Governator" And California Lawmakers Approve Firearm Owner Registration Scheme

Friday, October 16, 2009

Governor Schwarzenegger (R-Calif.) signed yet another severe, but impotent gun control measure into law. Assembly Bill 962, which takes effect on February 1, 2011, mandates individuals purchasing ammunition to be fingerprinted and registered at the time of sale and outlaws mail order ammunition purchases. AB 962 will also require dealers to maintain these records indefinitely and make them available for inspection by the California Department of Justice. As an additional burden, ammunition retailers will also be required to store ammunition away from purchasers. AB 962 failed to garner support from Attorney General Brown, or any law enforcement organization. In fact, 15 sheriffs wrote letters of opposition to this legislation.

"This law presents intrusive and unnecessary burdens that will only affect law-abiding firearm retailers and gun owners...not criminals," said NRA-ILA Executive Director Chris W. Cox. "At a time when California is facing dire budget problems, California has squandered valuable resources in policing law-abiding Californians instead of investing in substantive measures that target criminals. More than two decades ago, Congress abolished similar requirements at the federal level because ammunition sales records were found to be ineffective for solving crimes. It is indeed regrettable that foolish minds and bogus arguments prevailed over common sense and empirical evidence."

Governor Schwarzenegger vetoed Senate Bill 585, a bill that would have prohibited the sale of firearms and ammunition at Cow Palace in Daly City, just outside of San Francisco. He also signed Senate Bill 175, which will exempt gunsmiths from a vague California law. This exemption will now allow for the exchange of a firearm to or from a gunsmith for purposes of service or repair."Governor Schwarzenegger acted in the interest of good public policy with his actions on SB 585 and SB 175. But, in signing AB 962, he has paved the way for one of the most intrusive and ineffective gun control laws that California has seen in recent years," said Cox.NRA will review all possible legislative and legal options to remove this draconian requirement from California statute.●
